## NEW ELECTRIC CHAINSAWS GS 180 E - GS 200 E

The new GS 180 E and GS 200 E electric chainsaws are designed to handle small home jobs such as cutting firewood for stoves and fireplaces, minor pruning work or DIY duties. With their perfect combination of high performance, ease of use and minimal maintenance these tools are ideal to perform even demanding tasks rapidly and with the maximum operating comfort.

Powerful 1800 W and 2000 W motors guarantee high cutting speed so that even the toughest timber or branches of medium diameter can be tackled confidently.

The chain can be fitted and adjusted without using tools. The ergonomic "no tools" system means the chain can be tensioned easily in a matter of seconds.

Compact and ergonomic design for improved operator comfort.

Transparent oil reservoir so the level can be checked at a glance.

Handles clad in textured "soft touch" rubber ensure an anatomic and secure grip of the tool at all times.

Large diameter oil filler cap conspicuously positioned for fast and easy top-ups.

## TECHNICAL SPECIFICATIONS

MODEL	OM	GS 180 E	GS 200 E
<b>ENGINE</b>			
TYPE		Electric	
POWER	W	1800	2000
VOLTAGE	V	230	
FREQUENCY	Hz	50	
<b>LUBRIFICATION SYSTEM</b>			
OIL TANK VOLUME	l	0.35	
OIL PUMP		Automatic (not adjustable)	
<b>TRANSMISSION SYSTEM</b>			
TRANSMISSION		Pinion	
PINION TEETH N°		6	
<b>SAFETY</b>			
NOISE PRESSURE (ISO 7182)	dB(A)	95	
NOISE POWER (LwA 2000/14/EC, EN ISO 3744)	dB(A)	105	
VIBRATION LEVEL (ISO 22867 - EN 12096)	m/s <sup>2</sup>	3.3 (SX) / 3.0 (DX)	3.6 (SX) / 4.2 (DX)
<b>ERGONOMICS</b>			
FRONT HANDLE		With rubber skin	
REAR HANDLE		With rubber skin	
<b>CUTTING SYSTEM</b>			
BAR LENGTH	mm (inch)	350 (14)	410 (16)
CHAIN PITCH	mm (inch)	1.3 (3/8 x .050)	
CHAIN SPEED	m/s	11.6	
CHAIN TENSIONER		Lateral - "No-Tools-System"	
HOOK		Plastic + metal	
WEIGHT (Without cutters and bar)	kg	4.4
